Exclusively for You!

What We Do?

A Better Me Network is a nonprofit organization with the mission of empowering women to become self-sufficient and financially independent by providing supportive services as well as personal and career development training at no cost. Our organization offers two major programs--"Excel and Perfected". Excel focuses on women who have been exposed to domestic violence, drug or alcohol abuse, homelessness or incarceration while Perfected is geared toward women seeking personal, education, career and business advancement.
